INFORMATION BULLETIN

OCTOBER 1998

How to figure valuation and fees

Permit fees are based on an estimated valuation of new construction and/or improvements covered by a permit. This Information Bulletin provides the amounts needed to determine that valuation. Fees are calculated separately; see Information Bulletin 102.

For example, if you are building a

3,000-square-foot wood frame dwelling, the permit fees would be based on an estimated valuation of \$84 per square foot, or \$252,000. Refer to the \$252,000 line on the Fee Schedule (Information Bulletin 102) for the permit fees.

If you are applying for permits for a spa and deck, the spa valuation is \$6,200.

The deck covers 100 square feet for a valuation of \$1,250 (at \$12.50 per square foot). With a total valuation of \$7,450, refer to the \$8,000 line on the Fee Schedule for the permit fees.

These valuations are effective October 5, 1998.

To determine the valuation of work not affecting existing floor area, such as enclosing an open porch, sunshade, patio or conversion of a garage, use the difference in the valuation per square foot between the existing and the new occupancy.

The valuations in this bulletin are estimates. In lieu of these valuations, Development Services will accept a reasonable, certified cost estimate of the proposed work from the project designer or contractor.

Shell Buildings

A shell building is defined as a building for which HVAC, lighting, suspended ceilings, plumbing and electrical systems, partition layouts and interior finish are not shown on the plans and for which separate tenant improvement plans will be submitted for plan check at a later date showing these items. Warehouses and industrial buildings shall not be considered shell buildings.

The valuation for shell buildings shall be taken as 80 percent of the valuation for the completed building.

Tenant improvements to shell buildings are \$29.00 per square foot, if there has been no change in proposed use from the shell to the tenant space.

INFORMATION BULLETIN 102

JANUARY 2000

This Information Bulletin lists City of San Diego Planning and Development Review Department's general building fees effective January 1, 2000 and fees of other departments related to building construction projects.

This bulletin is designed to help Planning and Development Review customers determine approximately how much their construction permit fees will be, based on the building valuations. For building valuations, refer to Information Bulletin 101.

The table in this bulletin lists the charges for the building permit based on the value of the improvements being done on the property. Fees are assessed per structure.

The fees listed in Table 102A consist of building permit fees for all types of construction — commercial and residential. Fees for permits associated with non-residential and multi-family construction are listed in Table 102A under Building Permit Fee. Separate electrical, mechanical, plumbing and gas permits are required for multi-family and non-residential construction projects; refer to Information Bulletin 103 for these fees.

When a building permit is being issued for single family dwellings and duplexes, the associated electrical, mechanical and plumbing fees shown in Table 102A will be included, when applicable.

I. BUILDING PLAN CHECK AND PERMIT FEES

Plan check fees are paid at the time plans are submitted to Planning and Development Review for plan check. If the permit can be issued at initial contact, then the plan check fees, permit fees and any additional fees due will be listed on one invoice. Payment is made to the City Treasurer at the Cashier in the Development Review Center by cash, check, Visa or MasterCard.

Since fees are determined by project valuation, a precise valuation of the project will be verified by City staff during review. Becuase there are often changes in valuation, some plan check fees may be required after the intial review.

Permit and all other fees are paid when the permit is issued.

A. Application Fee

This fee is charged to recover general plan maintenance.

Application Fee\$80

B. Permit and Plan Check Fees

Basic building permit and plan check fees are based

on the value of the improvements being done on the property. To determine the value of the improvements, use Information Bulletin 101, Building Valuation Schedule. After the valuation is obtained, use Table 102A to determine the building permit and plan check fees. See the first section of Table 102A for projects with valuations up to \$500,000 and the end of Table 102A for projects over \$500,000.

C. Express Plan Check Fees

When available, a reduced review period can be accomplished by paying Express Plan Check fees. These fees are in addition to the standard plan check fee. See Table 102A for details.

D. Permit and Plan Check Fees for Factory Built Housing

Refer to Information Bulletin 101, Building Valuation Schedule, to determine the valuation of a new structure of similar construction as the factory built structure being proposed. Once the valuation is determined, use 25% of that value to determine the fees required for factory housing. The building permit and plan check fees can be found in Table 102A.

E. Relocation Permit Fees

Refer to Information Bulletin 101, Building Valuation Schedule, to determine the valuation of a new structure of similar construction. Use 20% of the value shown for the relocated structure. After the valuation has been determined, see Table 102A for plan check and permit fees. A minimum valuation for such work shall be \$20,000.

An additional fee may be charged for buildings located outside the City of San Diego.

Minimum one hour\$52 per hour

F. Plan Recheck Fees

If plans are changed after final approval and permit issuance, and must be rechecked, a non-refundable recheck fee must be paid.

Minimum charge: one-half hour\$52 per hour

G. Expired Permit Replacement

The fee for replacing an expired permit is the cost of the full permit fees on the remaining work. See the appropriate fee schedule for the proper amount.

H. Disabled Access

Fees are charged for plan checking and the inspection of new structures and alterations or additions for compliance with State disabled access regulations. The plan check fee is 5 percent of the structural plan check fee and the inspection fee is 5 percent of the building permit fee.

I. Land Development Review

The following plan check fees may be assessed by the City of San Diego Planning and Development Review Department, Land Development Review Division, for plan review.

Reinspection/High-Rise	\$50 per hour, per inspector

L. Water and Sewer Fees

Planning and Development Review assesses a plan check fee equal to two percent of the combined water and sewer capacity charges due to the City. These fees are due when the permit is issued. See Information Bulletin 104, Water and Sewer Fees, for more information.

M. Acoustical Plan Check Fee

This fee is charged to recover the cost of providing an acoustical plan check for construction projects in certain noise critical areas..

Acoustical Plan Check Fee\$ 26

N. Hazardous Materials Processing Fee

This fee is assessed for each non-residential permit to recover the cost of processing the State of California-required hazardous materials certification.

Hazardous Materials Processing Fee\$23.00

O. State of California

The State of California charges 10 cents per \$1,000 estimated valuation on all permits for construction of single- or multi-family structures one- or two-stories high. The charge is 21 cents per \$1,000 estimated valuation for multi-family construction three stories or higher and for permits on non-residential construction.

P. School Fees

A charge may be assessed by the local school district. Contact the appropriate school district for information on how much the fees are and where they are collected. These fees, if applicable, must be paid before obtaining a building permit. Refer to the Planning and Development Review School Fees brochure or the white pages of the telephone directory for the address and telephone number of the school district offices serving the San Diego City area.

Q. Park Fees

The City of San Diego Park Fee is required for all new single- and multi-family construction.

A Special Park Fee may be required for all new units constructed within certain communities. For information call Planning and Development Review, Facilities Financing at (619) 533-5950.

R. Development Impact Fee

A Development Impact Fee may be charged for development projects. The fee charged is dependent upon the community in which the project is located. For information call Planning and Development Review, Facilities Financing at (619) 533-5950.

S. Facilities Benefit Assessment

An assessment will be levied on development projects if the project falls within a Facilities Benefit Assessment Area. For information call Planning and Development Review, Facilities Financing at (619) 533-5950.

T. Housing Trust Fund Fee

For non-residential new construction, the City's Housing Trust Fund Fee is assessed at the time the permit is issued. For information call Planning and Development Review, Facilities Financing at (619) 533-5950.

II. ELECTRICAL, PLUMBING/GAS AND MECHANICAL PERMIT FEES

Additional fees are charged for specific plumbing, gas, mechanical and electrical installations for multifamily and non-residential construction projects. Separate plumbing, gas, mechanical and electrical fees will be charged for single family and duplex projects which only involve plumbing, gas, mechanical and electrical work without any building permit work. See Information Bulletin 103, "Worksheet for Mechanical, Electrical, Plumbing/Gas" for charges.

III. DEMOLITION, REMOVAL PERMIT FEES

A. Demolition Permit Fees

These fees are charged to cover the costs of review and inspection of building demolition to ensure compliance with applicable City of San Diego regulations.

The *greater* of:

- \$0.17 per \$1,000 building valuation of a new structure of similar occupancy and type of construction, as determined by the San Diego Municipal Code.

B. Removal

This fee is charged for removing a structure from its site and ensuring lot clean-up, sewer cap and utility disconnects.

Structural Removal Permit Fee\$52
